Masters India
Private Limited

Masters India
Since 1999

DRIVING
EXCELLENCE
FOR
GENERATIONS

Since 1999, Masters India has been a leading name in aluminium, built on decades of expertise, innovation and quality. With advanced facilities across Delhi-NCR, Rajasthan and Maharashtra, the company produces high-quality aluminium products backed by strong capacity and precision engineering. Supported by a skilled team, Masters India continues to grow, innovate and set new benchmarks while expanding its presence across India and beyond.

BEYOND ROOF, BUILDING TRUST.

Alushade is India's own aluminium roofing brand crafted by Masters India. Built with premium 3105-grade aluminium and offered in 100+ designs, it delivers strength, style and long-lasting protection from metal to final roof. Backed by a lifelong warranty and trusted manufacturing excellence, Alushade stands for roofing that is reliable, durable and truly redefined.

ALU SHADE

Original Aluminium Roofing Sheets

WHY ALUSHADE?

Alushade is the original aluminium roofing sheet from Masters India, crafted with high-grade alloys for strength, durability and a flawless finish. With over 25 years of expertise, global certifications and a dedicated R&D team, Alushade delivers top-quality roofing backed by a lifetime warranty. Designed to handle heat, heavy rains and UV exposure while staying low-maintenance, it offers long-term protection, elegance and value for homes and projects across India.

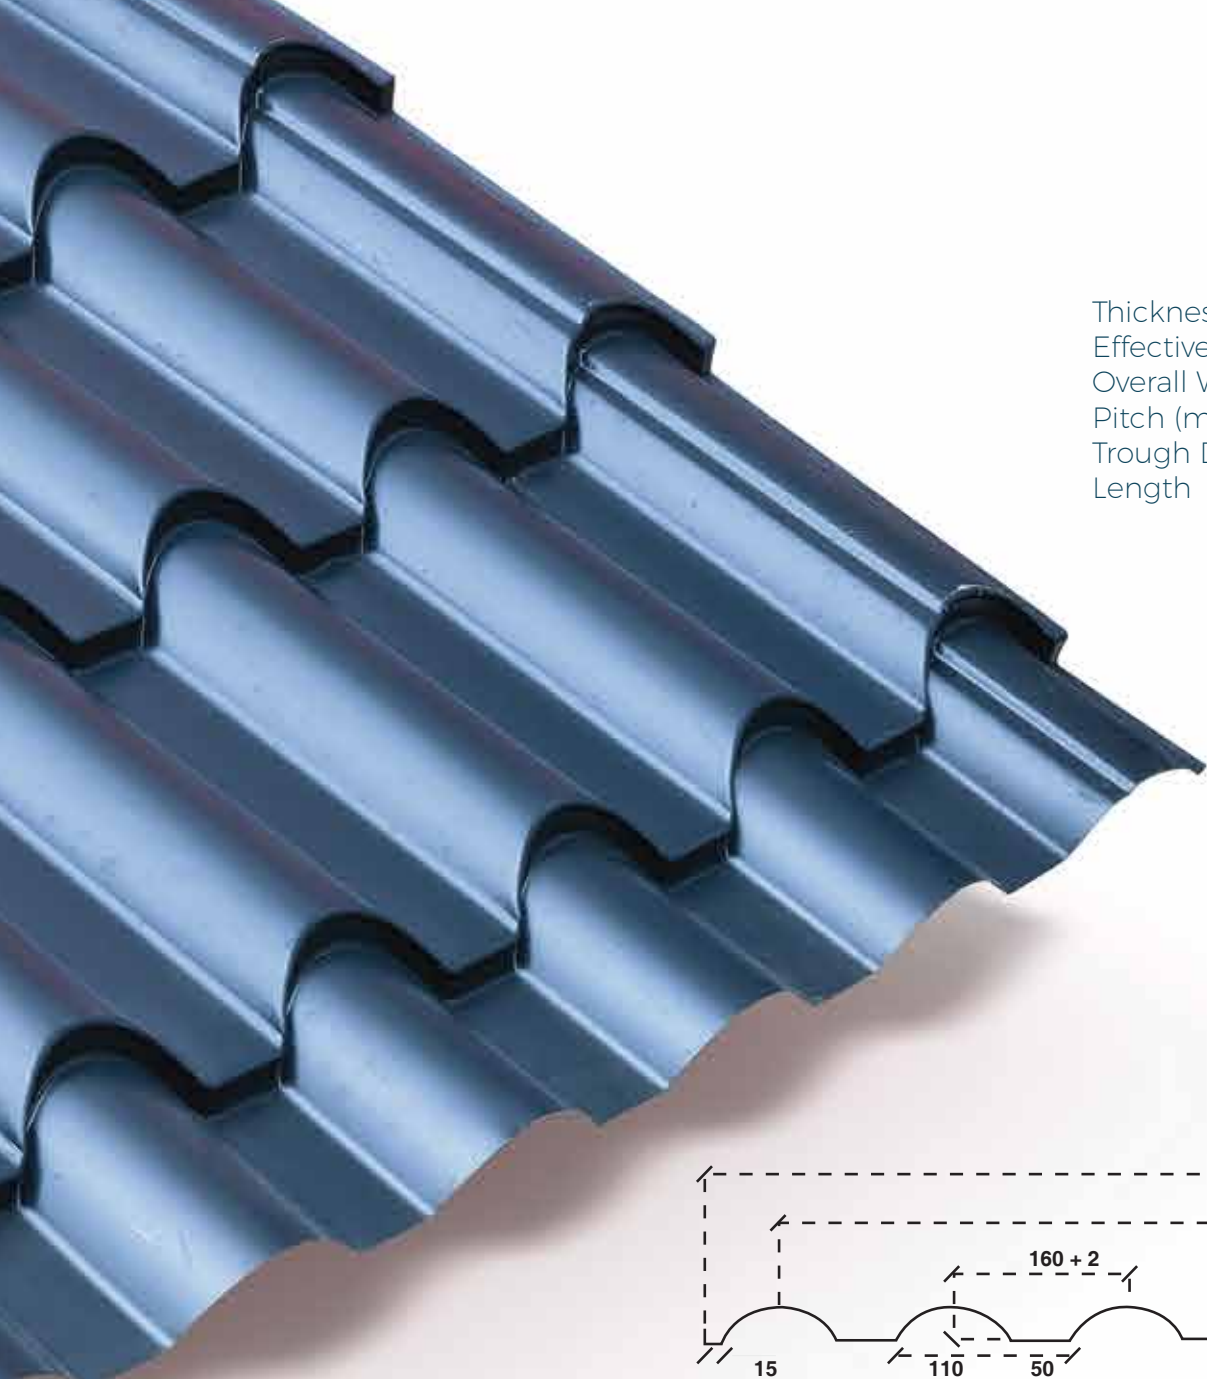

THE TRUSTED CHOICE IN
ALUMINIUM ROOFING.

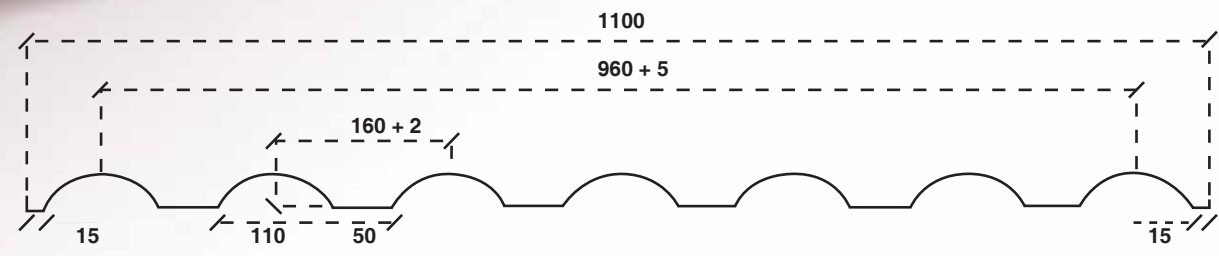

TERRA TILE

Inspired by traditional tile aesthetics but engineered in aluminium, Terra Tile blends timeless design with advanced durability. Lightweight, low-maintenance and weather-resistant, it ensures homes look classic yet remain protected for decades.

ALUSHADE VS GI ROOFING SHEETS

FEATURE / BENEFIT	ORIGINAL ALUMINIUM ROOFING	GI ROOFING SHEETS
Rust & Leakage Proof	100% rust-proof and leak-proof	Prone to rust and leakage over time
Heat-Resistant Durability	Reflects heat, stays cooler & long life	Absorbs heat, reduces comfort & shorter lifespan
Paint Protection Technology	Advanced coating for long-lasting paint adhesion	Paint peels, fades & requires frequent repainting
SDMP Coating	Super Durable Modified Polyester (SDMP)	Conventional coating & less durable
Metal Grade	Premium 3105-grade aluminium alloy	No specific grade
Design Options	100+ designs, colours & finishes	Limited styles & aesthetics
Warranty	Lifelong manufacturer warranty	Short or limited warranty coverage
Strength	Heavy on durability	Less durability
Resale Value	High resale value due to recyclable aluminium base	Low resale potential & depreciates quickly.
